1. Statutory Guidance

Introduction

“The ability to understand the faith or belief of individuals and communities, and how these may shape their culture and behaviour, is an invaluable asset for children in modern day Britain. Explaining religious and non-religious worldviews in an academic way allows young people to engage with the complexities of belief, avoid stereotyping and contribute to an informed debate” – Why RE Matters -The RE Council

“Every child and young person who goes to school is entitled to an experience of religious education (RE) that is both academically challenging and personally inspiring” - A Curriculum Framework for Religious Education in England -The Religious Education Council of England and Wales -October 2013)

“RE is an important curriculum subject. It is important in its own right and it also makes a unique contribution to the spiritual, moral, social and cultural development of pupils and supports wider community cohesion” - Religious Education in English Schools: Non-statutory guidance 2010

A review of the National Curriculum for schools in England was made by the Department for Education (DfE) in 2013. RE was not part of the DfE review because it is statutory as Basic Curriculum alongside the National Curriculum subjects. The RE curriculum is set locally where the local authority Standing Advisory Council on Religious Education (SACRE) is responsible for producing the locally agreed syllabus for RE.

As a result of the DfE review, the Religious Education Council for England and Wales (REC) concluded that a review of RE was needed for reasons of equity with other subjects. Teachers with responsibility for RE in schools in England are expected to plan lessons, assess pupil progress, and have their performance held to account, as other teachers do. School leaders expect them to use the same or similar criteria to those deployed in other subjects in the curriculum. In October 2013 the REC published “A Curriculum Framework for Religious Education in England” to support those teachers and schools.

Taking our lead from the REC and following the lay out and style of the documents for the National Curriculum, you will find that the new syllabus for the teaching of RE in schools in the Cambridgeshire, Northamptonshire, Peterborough and Rutland local authority areas, set out here is shorter and less prescriptive as to content than in earlier years. Schools have the flexibility to provide more coherent and integrated cross curricular learning experiences to complement discrete subject teaching tailored to the needs of their pupils and community.

The Legal Requirements

What schools must do

Every state-funded school must offer a curriculum which is balanced and broadly based, and which:

- promotes the spiritual, moral, cultural, mental and physical development of pupils, and
- prepares pupils at the school for the opportunities, responsibilities and experiences of later life and all state schools... must teach religious education... all schools must publish their curriculum by subject and academic year online. 'The national curriculum in England: Framework document', September 2013, p.4

All maintained schools must follow the legal requirement to teach a broad and balanced curriculum, which includes RE. All maintained schools therefore have a statutory duty to teach RE. Academies and free schools are contractually required through the terms of their funding agreement to make provision for the teaching of RE.

In brief, legislation requires that:

- in maintained community, foundation or voluntary schools without a religious character, RE is taught in accordance with the local Agreed Syllabus;
- the requirements are that a syllabus must 'reflect the fact that the religious traditions in Great Britain are, in the main, Christian while taking account of the teaching and practices of the other principal religions represented in Great Britain';
- academies and free schools must teach RE within the requirements for a locally agreed syllabus, set out in section 375 (3) of the Education Act 1996 and paragraph (5) of Schedule 19 to the School Standards and Framework Act 1998;
- for foundation and voluntary controlled schools with a religious character, RE must be taught according to the Agreed Syllabus unless parents request RE in accordance with the trust deed of the school; and
- in voluntary aided schools RE must be taught in accordance with the trust deed.

RE must be included in the curriculum for all registered pupils, including all pupils in reception classes and sixth form, but excluding:

- pupils in nursery schools or nursery classes in primary schools;
- any person aged nineteen or above for whom further education is being provided at school; and
- any person over compulsory school age who is receiving part-time education. Based on NATRE website -National Association of Teachers of Religious Education

Aims and purpose (statutory)

The aims of the syllabus are for pupils:

- to develop religious literacy;
- to acquire and develop knowledge and understanding of Christianity and the other principal religions and world views represented in the United Kingdom;
- to develop an understanding of the influence of the beliefs, values and traditions on individuals, communities, societies and cultures;
- to develop attitudes of respect towards other people who hold views and beliefs different from their own;
- to develop the ability to make reasoned and informed judgements about religious issues, with reference to the principal religions and world views represented locally and in the United Kingdom.

Religions deal with some of the most profound and difficult questions in human life, questions such as:

- What is the purpose of life?
- How should people treat each other?
- How do we explain and cope with death and suffering?

Religions approach these issues in complex ways, in ways of life, culture and action, as well as ritual, tradition, story, symbol and belief. Religious Education must take account of this depth and complexity, helping pupils to an understanding appropriate to their age and aptitude.

To do this RE needs:

- to develop pupils' skills;
- to enable them to ask questions;
- to discover information, to approach new material with empathy;
- to reflect on their learning. Pupils should not only acquire knowledge but also be able to use their knowledge to understand their world, build community, and develop their personal position.

Throughout the RE curriculum pupils should be encouraged to **explore** religions, **engage** with their knowledge, and **reflect** on their learning and their lives.

Religious Literacy

Religious literacy is the knowledge of, and ability to understand, religion, beliefs, practices, spiritual insights and secular world views. It plays an important part in preparing pupils for life in modern Britain. Its importance is increasing as globalisation has created greater links and migration between societies of different faiths and cultures. Someone who is religiously literate is able to talk with fluency and understanding about religion and belief. It is firmly rooted within educational practice. A crucial aspect of religious literacy is through school RE.

What to teach (statutory)

All content in the WHAT TO TEACH column is statutory and therefore must be taught.

Each Key Stage builds upon the one before, so by the time pupils reach the end of KS3, they should have had the opportunity to receive a broad, inclusive religious education.

Teachers should consider the religious experience of the pupils in the classroom and the whole school when planning which religions to look at and in which order.

- Christianity will be studied in all Key Stages.
- The choice of which other religion(s) to study in KS1 should be relevant to the experience of the pupils in the class and local demographic. Where Christianity is the only religion present the school will choose the other religion to be studied.
- However, by the end of KS2 all major religions (Christianity, Islam, Judaism, Hinduism, Buddhism and Sikhism) and a secular world view (humanism) must have been studied.
- In KS3, building on KS2, all major religions and a secular world view must have been studied in greater depth.

It is desirable that all pupils visit a church or other Christian place of worship and the school should make all efforts to plan visits to religious buildings of other faiths. Visitors from different faiths and world views should be encouraged to visit all schools. When neither visits nor visitors are possible then the use of virtual tours and resources are recommended.

RE and Pupils with Special Educational Needs and Disability (SEND)

RE is a statutory part of the core curriculum for all pupils, including those with learning difficulties. Pupils with SEND are found in all contexts and all teachers are teachers of SEND. Good quality teaching in RE will tailor the planning of the syllabus carefully to the special needs of all pupils. Pupils with special educational needs will not always meet the same expectations in RE as other pupils and therefore appropriate assessment materials will need to be used, (exemplars are indicated within the support materials). All programmes of study that are planned for pupils with special educational needs should take account of the targets and recommendations in their Individual Educational Programmes. A multi-sensory approach can be helpful in planning RE for children with special needs.

For the small number of pupils who may need the provision, material may be selected from materials used in earlier or later key stages, to enable individual pupils to progress and demonstrate achievement. Such material should be presented in contexts suitable to the pupil's age. In making decisions about adjusting the content of the key stage, teachers should take into account the previous experience of the pupil as well as the necessity to communicate to subsequent teachers a specific differentiated approach to entitlement.

In Special Schools there is no recommended time allocation for RE but it should be part of the main curriculum.

Teaching (statutory)

	What to teach	Approach	Entitlement
EYFS	Will follow EYFS framework. Minimum 30hrs teacher-led activities		
KS1	Christianity. Schools should also draw on the background of the pupils to choose one or more other faiths.	Experiential and enquiry approach. Starting with family, neighbourhood and special times. Concentrating on the similarities of religions	Minimum of 36hrs in a school year
KS2	Christianity, five other world religions, humanism and an acknowledgement of other world views.	Experiential and enquiry approach. Moving from the local to the national and international examples of religion. Exploring diversity, similarities and differences within and between religions, humanism and other world views.	Minimum of 45hrs in a school year
KS3	Christianity and five other world religions, humanism and an acknowledgement of other world views and other religions found in the locality.	Experiential and enquiry approach. With doctrinal and philosophical aspects of religion.	Equivalent of 45hrs in a school year
KS4	Students will follow a course which may lead to a public examination in RE or explore (in specific curriculum time) topic based learning relating to local and international issues paying attention to their religious dimensions. Explore the connections between RE and other subject areas.	Experiential and enquiry approach. With doctrinal and philosophical aspects of religion	5% curriculum time
KS5	Some students will follow a course which may lead to a public examination in RE and others will explore a RE specific enrichment project or equivalent (e.g. a religious text, concept or view point) supporting them in their further education.	Examinations, enrichment curriculum time and individual projects including EPQs.	Flexible programs which, whilst avoiding tokenism, may include units of study, day conferences and work integrated with other subjects

Attainment Targets (statutory)

There are two attainment targets in RE; good and outstanding RE will achieve a close relationship and a balance between these targets over a unit of work.

AT1 – Learning about religion and belief

Enquiring into, investigating and understanding religions and beliefs. This includes thinking about and interpreting religious beliefs, teachings, sources, practices, ways of life and ways of expressing meaning with reference to the specific beliefs and religions studied.

AT2 – Learning from religion and belief

Questioning, exploring, reflecting upon and interpreting human experience in the light of religions and beliefs studied. This includes communicating reflections, responses and evaluations about questions of identity, belonging, diversity, meaning, purpose, truth, values and commitments, making increasingly insightful links to the specific religions studied.

Schedules for measuring assessment (statements) are in the supporting materials.

RE and the wider school curriculum

A holistic approach to Spiritual, Moral, Social and Cultural development (SMSC), British Values, and Community Cohesion focuses on preparing pupils for life in the 21st century, engaging pupils in a contemporary and relevant context. RE develops pupils' knowledge and understanding of Christianity, other religious traditions and secular world views and explores their responses to life's challenges. Reference is constantly made to those who live out their beliefs, insights and values in their daily lives and within their own communities. This gives pupils the knowledge and skills to flourish both within their own community and as members of a diverse and global society.

RE plays an important role in preparing pupils for their future, for employment and lifelong learning. It enhances their spiritual, moral, social and cultural development by:

- Developing awareness of the fundamental questions raised by human experiences, and of how religious teachings can relate to them
- Responding to such questions with reference to the teachings and practices of religions and other belief systems, relating them to their own understanding and experience
- Reflecting on their own beliefs, values and experiences in the light of their study.

Although RE contributes to other subjects it must not be defined by or confined to them.

Similarly, although RE and Collective Worship can enrich each other, RE cannot be replaced by or delivered through Collective Worship.

2. Non-statutory Guidance

Introduction

The aims of this syllabus are supported by non-statutory guidance including progression documents on individual religions and world views, exemplar lesson plans and relevant topics for Key Stages, and Assessment Criteria written by your local SACRE, together with teacher training sessions, RE newsletters, other online resources such as the Cambridgeshire Knowledge Hub, together with links to other web-based materials.

Curriculum planning

Schools need to plan their religious Education (RE) curriculum with consideration of their schools' cohort and local demographics.

Using the 2018 syllabus is not about reinventing the wheel. All Schools should review their existing curriculum and keep what they consider to be outstanding and strong RE. The next step is then to consider how this fits with the statutory requirements of the new syllabus and plan the rest of the curriculum accordingly. Included with this document are exemplars of whole school planning using the 2018 agreed syllabus for all key stages.

The aims of the syllabus are for pupils:

- to develop religious literacy;
- to acquire and develop knowledge and understanding of Christianity and the other principal religions and world views represented in the United Kingdom;
- to develop an understanding of the influence of the beliefs, values and traditions on individuals, communities, societies and cultures;
- to develop attitudes of respect towards other people who hold views and beliefs different from their own; and
- to develop the ability to make reasoned and informed judgements about religious issues, with reference to the principal religions and world views represented locally and in the United Kingdom.

Religions deal with some of the most profound and difficult questions in human life, questions such as:

- What is the purpose of life?
- How should people treat each other?
- How do we explain and cope with death and suffering?

Religions approach these issues in complex ways, in ways of life, culture and action, as well as ritual, tradition, story, symbol and belief. Religious Education must take account of this depth and complexity, helping pupils to an understanding appropriate to their age and aptitude.

To do this RE needs:

- to develop pupils' skills;
- to enable them to ask questions;
- to discover information, to approach new material with empathy; and
- to reflect on their learning. Pupils should not only acquire knowledge but also be able to use their knowledge to understand their world, build community, and develop their personal position.

Throughout the RE curriculum pupils should be encouraged to explore religions, engage with their knowledge, and reflect on their learning and their lives.

The 2018 syllabus recommends that all key stages use 'Enquiry' methods and when planning and delivering units of work. When planning units of work a range of approaches to learning that match different types of enquiry should be used, for example:

- 'Big Questions' are used as the focus of an enquiry
- use experiential and creative activities where pupils can develop their insight into the 'experience' of religion
- use reasoned argument and debate where pupils can explore controversial issues
- using investigative and interpretative skills where pupils need to gather, analyse and present information
- planning sequences enquiries to make sure pupils build effectively on prior learning and can see the relevance of their investigations
- the enquiry process allows pupils' to progress in RE and this progression is defined and assessed.

The benefits of enquiry approaches are:

- Pupils develop a deeper understanding, going beyond simply learning facts to handling ideas and questions;
- Pupils increase confidence as learners; discussion is no longer so teacher-led; and
- More sustained learning is achieved, not the fragmented pattern of work often seen in RE.

Learners follow through their enquiries building on their thinking across a number of sessions.

Using the progression documents

The Progression Documents are designed to support teachers with the preparation of schemes of work. The progressions contain information on the important knowledge appropriate to each key stage, as well as suggestions for vocabulary, questions and activities. Following the progressions should enable students to develop an understanding of the religion or non-religious worldview and what it means to live one's life as a follower of the religion or world view today.

These progressions are not designed to tell teachers how to teach RE. They are a guide to what core content is recommended to be covered in order for students to develop a sound understanding. The content can be taught systematically, through focused study on a religion or humanism, or more thematically using perspectives from each to inform a wider study of topics such as 'Belief in a god or gods'; 'What is Religion?'; 'How can I know the difference between right and wrong?'; 'Beliefs about death'; or 'Does life have any meaning?'. Either way, opportunities should be made to relate, compare, and contrast the variety of beliefs and values and to make links between them. Students should also be presented with the opportunity to reflect upon, evaluate, and critique what they learn, and make connections with their own lives and experiences.

The progression documents of the religions and humanism differ because what is important in each case may be different although common themes are evident. Although the progression documents provide students with the opportunity to develop an understanding of many of the commonly agreed beliefs and values shared by followers of the religions and of humanism, they do not claim to represent the authoritative word on any religion or on humanism. Not all agree, and opportunities should be made to explore where diversity exists, and the debates that go with it.

Guide to assessment and the use of assessment tools in RE

In religious education, just as in other subjects of the curriculum, it is important to let pupils know how they are doing and what they must do next to make progress. As well as acquiring *knowledge* and *skills*, it is a key part of religious education that pupils' *positive attitudes to study* should be encouraged and praised. The core of this agreed syllabus is for all pupils to be able to **explore** religions, **engage** with their knowledge, and **reflect** on their learning and their lives. So, it is important for both teachers and pupils to recognise that:

- Assessment is most effective when it leaves pupils clear about their attainment, their progress and their strengths and weaknesses. The giving of personalised, oral and written feedback is an important part of this.;
- The most effective RE teachers use the evidence from assessment to focus teaching more closely on the individual needs of pupils and the development of the enquiry;
- Pupils' chances of achieving well in RE are improved when teachers set clear, focused objectives for lessons and learning outcomes for tasks;
- Good quality RE comes from lessons that are stimulating and enjoyable for both the pupils and teacher;
- Not every piece of work needs to be assessed;
- Pieces of work suitable for assessment come in many different forms; and
- Formative assessment can be just as valuable as summative.

How to use this assessment document in Key Stage 1 and 2

As the 2018 RE agreed syllabus does not prescribe what schools should teach and the same approach has been adopted for assessment. Each Key Stage builds upon the one before, so that by the time pupils reach the end of KS3, they should have had the opportunity to receive a broad, inclusive religious education. Teachers should consider the religious experience of the pupils in the classroom and the whole school when planning which religions to look at and in which order and the assessment tool has been devised to be flexible enough to support this.

The 'Assessment tool' for key stage 1 and 2 is generic and allows for different forms of assessment to take place across the RE curriculum and the pupils' experiences in RE. The 'Assessment tool' offers criteria for assessment for each year group and should inform all assessment in RE. Assessment for each pupil should be made against the parameters that have set for the unit or topic being taught. The statements support the progression and attainment and the key expectations for pupils in a particular year group. Alongside everyday marking and Assessment for Learning (AFL), one key assessment piece per unit or enquiry would be appropriate. Over the year there should be a variety of AT1 and AT2 pieces in different styles and genres should be assessed.

To stay in line with current best educational practice we suggest that three categories of attainment are needed. Different schools use different terms for these categories along the lines of the 'emerging – expected – exceeding', or 'working towards', 'working at' or working beyond', to achieve 'mastery'.

SACRE will be asking for data at the end of KS1 and KS2 and this will be asked for using the vocabulary of:

- working towards,
- working at,
- exceeding,

The data required and requested will be for both AT1 and AT2 and based on the end of Key Stage Statements for KS1 and KS2.

Assessment in KS3

With national removal of assessment levels in Key Stage 3, there is now a greater focus on knowledge development, along with the opportunity to study the 'big ideas' of RE in greater depth.

This development now allows the opportunity to provide a more appropriate Key Stage 3 curriculum which builds the important foundations for Key Stage 4. KS3 and KS4 should no longer be seen as separate courses, but rather as a continuum. There is now an opportunity to develop better assessments practices and opportunities which highlight specific strengths and areas for development within those 'big ideas' and support the development of pupils' understanding over the whole secondary phase.

As KS3 should be a continuum into KS4 and not all schools follow the same GCSE syllabus. This syllabus does not specify a particular model of assessment; schools are encouraged to take into account the expectations of the RE GCSE syllabus they are following for assessing at both KS3 and KS4. Included are exemplars of good practice which schools are encouraged to follow along with the guidelines below;

A KS3 curriculum and assessment model which:

- is focused on developing the key concepts, knowledge and skills needed for success in KS4;
- is based on high expectations and challenge for all;
- adopts a mastery approach to teaching and learning and uses proven effective teaching methods;
- uses regular assessment and feedback which gives all students the chance to develop a secure understanding of the key ideas;
- incorporates high quality end of topic assessments which help students develop the skills needed to tackle GCSE examination questions: and
- data from assessments reliably identifies what students have/have not understood and informs future teaching and learning, including intervention needs.

Y1	<ul style="list-style-type: none"> People in Christianity Places in Christianity Books and Stories 	<ul style="list-style-type: none"> People in Christianity Places in Christianity Rituals and Festivals (Christian and Islam)
Notes	<p>Y1 experience in RE should start from a family basis and experiences that the child or a child of their age within a different faith would have. They are beginning to understand what it means to 'have a faith' as well as looking at other faiths. While looking at 'Places in Christianity', connections and comparisons should start to be made with a mosque. Islam has been suggested as the 'other faith' to look at as it is easier to understand and connect with Christianity as it also worships a single God. Children should start to see that although we might look / sound / think differently, we are not all different across faiths, we look at things in very similar ways. Rituals and festivals will give the children further opportunities to compare and find similarities and differences. 66% Christianity and 33% Islam http://www.discoverislam.co.uk/</p>	
Y2	<ul style="list-style-type: none"> Family in Judaism Torah Family Ties 	<ul style="list-style-type: none"> Family in Judaism Christianity – Jesus Books and Stories (Bible and Torah)
Notes	<p>'Christianity - Jesus' has been put forward as a suggested unit to ensure that '50% or more of RE taught is Christianity'. The suggestions are that the children in Y2 start to question who Jesus was, what he was like as a child and what life was like for him growing up. This will lead into Y3 - Inspirational Leader, where his ministry and what it meant to people who came into contact with him is looked at. The fact that Jesus was a Jew who attended a synagogue makes the link with the other Y2 Focus Religion of Judaism. Books and Stories gives Y2 the chance to look at Christianity and Judaism side by side. As in Y1, keeping things at a 'family' level when studying other religions is best practise. 50% Christianity and 50% Judaism.</p>	
Y3	<ul style="list-style-type: none"> Jesus an inspirational leader Church Year - Christmas Church Year - Easter 	<ul style="list-style-type: none"> Jesus an inspirational leader Church Year - Christmas Hinduism
Notes	<p>Although the 'Church Year - Christmas' unit remains, we should now be expanding children's experiences from purely family based to the wider community. That means that in this unit, how other Christians celebrate Christmas around the world should be explored. The Hinduism unit means that we are engaging with different religions in each year group but should link to Jesus as an Inspirational Leader by questioning who others are inspired by. 66% Christianity and 33% Hinduism</p>	
Y4	<ul style="list-style-type: none"> Christianity in Action 5 Pillars of Islam Values 	<ul style="list-style-type: none"> Faiths in Action 5 Pillars of Islam Church Year - Easter
Notes	<p>Church Year - Easter has been separated from Church Year - Christmas and moved to Y4. Many younger children still have the 'He was born at Christmas and 3/4 months later is killed?' confusion and this will help to alleviate this. As part of the unit on Islam, connections can be made back to Y1 and also with the 'Faiths in Action' unit by learning about Zakat, where 10% of a Muslims income goes to others - including, if they have little money, their time. Christianity in Action has become Faiths in Action - this will be roughly spread that half of this unit will be looking at how Christians show their faith in action and the other half looking at other faiths - including those with no faith, recognising that you don't have to have a religion to give. 50% Christianity, 30% Islam and 20% Other faiths.</p>	
Y5	<ul style="list-style-type: none"> Words of Wisdom Sikhism Hinduism 	<ul style="list-style-type: none"> Words of Wisdom Sikhism Religions impact on the World
Notes	<p>The 'Words of Wisdom' unit should be spent unpicking the meaning behind the stories that Jesus told. This will link with the 'Sikhism' unit where the stories told by Guru Nanak can also be explored for greater meaning. The Religions impact on the world can focus on the environment, climate change etc. and what the religions are saying / doing about these situations (with a leaning more towards Christianity). Art Stories? 50% Christianity, 30% Sikhism and 20% Other faiths (including none). https://www.basicsofsikhi.com/</p>	
Y6	<ul style="list-style-type: none"> Stories of Faith Religions in the Community Beliefs and Actions 	<ul style="list-style-type: none"> Buddhism Worship and Prayer What does it mean to be a Christian? OR Stories of Creation
Notes	<p>Buddhism is one of the more complex and deep thinking religions and so a great one to leave until Y6. 'What does it mean to be a Christian?' has move from family (Y1 and Y2) and wider community (Y3 and Y4) to a more global focus and a bigger impact. Different denominations within the Christian faith also come into focus - How do they 'pray'? Worship? If 'Stories of Creation' is chosen then it would have a Christianity basis but with other religions coming in, as well as those with no religion. Worship and Prayer would work in the same way. 50 % Christianity, 30 Buddhism and 20% Other faiths.</p>

Resources and websites

This syllabus does not prescribe in the same detail what to teach and when as previous the previous syllabus. This allows schools to plan and teach to their individual needs and circumstances. Teachers should consider the religious experience of the pupils in the classroom and the whole school when planning which religions to look at and in which order. Each Key Stage builds upon the one before, so by the time pupils reach the end of KS3, they should have had the opportunity to receive a broad, inclusive religious education.

Our Agreed Syllabus allows for the planning of high quality learning experiences through an enquiry-based model using a range of [pedagogies](#). Throughout the RE curriculum pupils should be encouraged to **explore** religions, **engage** with their knowledge, and **reflect** on their learning and their lives. This should be reflected in schools planning of their RE curriculums.

The websites listed below offer schools and teacher's information and resources that should be used to help inform and influence planning only.
